# Ivan Radko

## Junior Front-end Developer

### SUMMARY

I am a front-end developer with a solid understanding of HTML, CSS, and JavaScript. Interested in developing interactive interfaces using the React framework with the Redux library. I have good knowledge of Git, Webpack, and Parcel for effective management and project building. I understand the basic principles of the Scrum methodology and the Agile manifesto, which helps me work in a team and ensure rapid development iteration.

### PROJECT EXPERIENCE

#### [WebStudio](#)

[HTML5, CSS3]

The WebStudio site takes into account modern web standards and complies with the principles of responsive design.

**Role: Developer**

#### [MIMINO](#)

[HTML5, CSS3, Parcel]

The team project multi-page website for a hotel and restaurant complex with a responsive layout.

**Role: Developer**

#### [BookShelf](#)

[HTML5, CSS3, JavaScript, Parcel, REST API, AJAX, Axios]

This is a team project website for the bookstore. The site is developed in compliance with modern web standards and has modal windows, a registration/login form, a color theme switcher, a loading spinner, and with responsive layout.

**Role: Developer**

#### [ImageFinder](#)

[React, ReactHooks, ReactIcons, Axios, Styled, REST API]

The web application for finding photos. This site consists of a search form, a modal window, pagination, notification (ReactToastify), and with responsive layout.

**Role: Developer**

#### [PhoneBook](#)

[React, ReactHooks, ReactRouter, ReactIcons, Redux, Axios]

The web application for saving contacts. The application consists of a login/register/save contacts info form, notification (ReactToastify), a loading component, and with responsive layout.

**Role: Developer**

#### [Jonathan](#)

[React, ReactHooks, ReactIcons, Axios, Styled, Vite, Netlify, EmailJs]

Jonathan (pet project) – Personal Portfolio React Template is a multi-purpose asset suitable for individuals in various fields. It boasts a creative, clean, and minimalist design that's perfect for professionals like designers, developers, specialists, content writers, instructors, photographers, freelancers, software engineers, teachers, and more. The template is not only 100% responsive but also exceptionally fast, all thanks to its construction using React.

**Role: Developer**

### WORK EXPERIENCE

For the last six months I have been working as a freelancer. I was engaged in the development and improvement of the admin panel for a medical facility, and was getting onto the creation of the admin panel from scratch for a real estate website using Next.js, under the guidance of an experienced developer.

### EDUCATION

#### IT School GoIT

2022 - 2023

Fullstack Developer
